

Nasser Hadjloo

UX Designer

I'm an optimist tech-savvy who is into reading books and looking for new challenges which makes digital life easier. I'm into history and mythology.

I try to be users voice inside company, I have to provide the best possible experience for users based on organizational limits. I have to put up with more challenges, so that customers face a clean, solid, and easy to use application. My goal is to make any so-called user, a possible brand advocate.

35 years old, Iranian, married, bachelor of software engineering, currently settled in Tehran, Iran.

Work Experiences

Faraconesh Corporation, from 2016 until now

<http://www.Faraconesh.com>

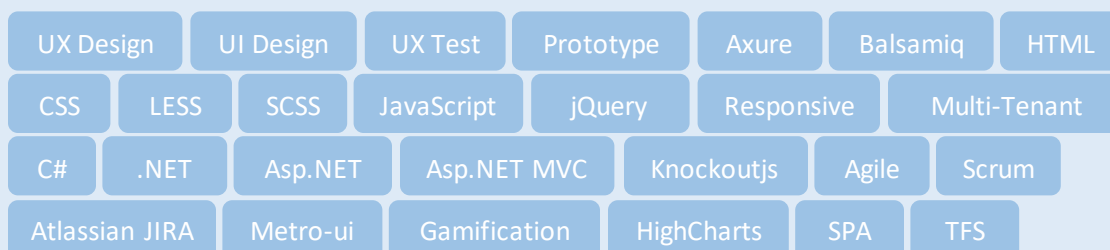

- UX Designer, 2 years
I implemented in-house UI framework and defined Faraconesh in-house design principal based on Microsoft's Fluent Design language.
I've designed and developed new web applications and Web APIs, and used them in Faraconesh **HelpDesk**, **Project Management**, **FCM**, **FCRM**, and **Supply Management** applications.

SimplyDesk, French ITIL-based Helpdesk, from Jan 2012 to Aug 2016

<http://www.simplydesk.com>

- *UI and UX designer*, 4 years
SimplyDesk is French Helpdesk, directed by [PCI France](#) with Agile (Scrum) methodology; I was the main UI/UX responsible for the *SimplyDesk* project, I prototype the user experience and chose the project UI technologies and implemented the entire user interface

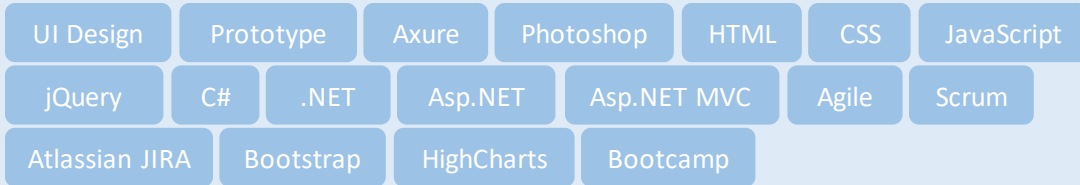

Faraconesh Corporation, from 2004 to 2012

<http://www.Faraconesh.com>

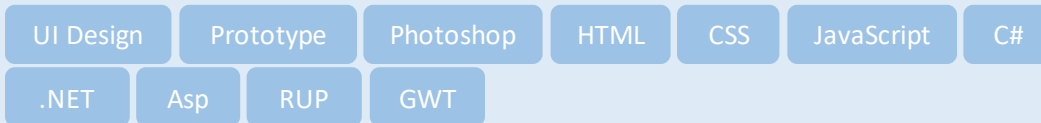

- *Senior Frontend Designer, 2 years;*

I've managed four projects in that time, **Mobin, Eskad, Troubleshooting and all Websites** with Agile (Scrum) methodology; I configured the CI (Continues Integration), and CD (Continues Delivery) of the projects.

- *Web Designer and developer, 6 years;*

I was the responsible for all *Faraconesh's* client-side technologies from prototyping and icon design of the smallest website to the biggest projects such as **ISMS, Risk Analyser and ERP**. Most projects managed with RUP methodology.

Al-Alam Interntional News Network TV, 2007

<http://www.alalam.ir>

- *ITIL Consultant, part time, 9 months;*

Pars Asan Afzar, 2008

- *Mobile developer, part time, 9 months;*
